

Kingdom of Saudi Arabia
Ministry of Energy, Industry & Mineral Resources

Office of the Minister

Thomas Kenneth Hall,

Congratulations on attaining the rank of Eagle Scout with the Boy Scouts of America. Less than 5% of those who begin this journey actually achieve this rank, which is a testament to your hard work, dedication and character. Furthermore, having completed your scout journey while in Dhahran illustrates the continued long-term relationship and common shared values between Saudi Arabia and the United States.

Your Eagle Scout project was of high value to the Saudi Aramco community and will help preserve the Company's heritage and reinforce the bridge between our two cultures. Best wishes on your continued success and I know you will remain an ambassador of our two great countries throughout your life.

On a personal note, should your advanced study aspirations align with the offerings of Texas A&M, I recommend you consider that University. I have fond memories of my time there and those experiences have further built upon my character traits that I still apply to this day.

With my best regards,

Khalid Al-Falih

Minister of Energy, Industry and Mineral Resources
